

I became Principal of this esteemed institution this academic year after our founder principal Mrs.Maheshwari Natarajan retired from active service. She has taken the school to greater heights and has set a bench mark. Sustaining that height is a challenge.

We believe in empowering our children in such a manner that they act as representatives of a meaningful and value based society! Our pedagogy which is holistic and comprehensive complements this. We have a team of fabulous faculty members who display boundless energy and intense commitment which keeps the ethos of our school shining brightly.

Our curriculum is taught by inspiring teaching staff who work hard individually and collectively to ensure that pupils fully achieve their potential whilst they are with us. Shaping the future of our country is a very responsible and challenging task. We fully envisage this and are fully entitled in empowering the children to develop the right attitudes for life to bravely foresee challenges and to conquer them. For greater academic excellence and empowerment of each child we believe in appropriate industry accepted teacher to child ratio which ensures personal attention and support to each student in the institute. With our alumni getting enrolled in reputed top-rated institutes has further strengthened our credibility in academic excellence by multi folds.

Year gone by, viz 2019 - 20, our institute has successfully fulfilled all the academic commitments via process-oriented board recommended assessments, field trips based out of curricular relevance, Inter and intra school level competitions and club activities which are based out of life skill development objectives. Along with these activities, future competitive exam model based tests like ASSET and Olympiads were also conducted as per schedule with an all in all participation from our enthusiastic students.

With the pandemic of Covid 19 knocking our doors, this year has begun with lot of unseen and unprecedented challenges to each one of us. As I strongly believe each challenge brings in an experience and a learning opportunity with it, this pandemic too has bought in a sea of changes in our education field which needs to be accepted and adapted by all the entities, students ,teachers and parents as well. Virtual learning and assessment is the need of the hour and we as an institute are rapidly trying to adapt and formulate a well balanced and constantly improvised process for the same. We are committed to bring in a fine tuned virtual learning experience which emulates all the aspects of physical classroom based teaching to children.

With the blessings of the Almighty and wholehearted support of the pillars of our institute who are my colleagues, students and parents I am feeling confident of overcoming and excelling all the unforeseen challenges in days to come. Let us all work towards ensuring achievement of all the targets of current academic year.

Looking forward for all your support.

Regards

Sankari Ravi
Principal and Member Secretary
Vidya Mandir @ Estancia
